## County Committees Hold Regular July Meetings

**SCHOOL COMMITTEE MEETING**  
The regular July meeting of the School Committee of the County of Vulcan No. 2 was held in the council room on Monday, July 15, 1963. Chairman J. M. McKay presided, and Committee Members F. Thurber, A. McAllister, A. Cutforth, G. Voisey, R. O. Bertrand and George Moses were present. Also present at the meeting was D. D. McQueen, secretary-treasurer.

A letter from Carl Johnson, Principal of the Lethbridge Junior College, was read. The letter drew attention to the fact that Mr. Johnson gave misinformation in respect to fees and requisitions for areas joining the Junior College district. Members of the committee were interested in Mr. Johnson's letter and desired further information in respect to the college. The secretary was instructed to write and obtain details in respect to requisitions payable and the benefits from the college program.

It was moved and carried that Gordon Prusky's resignation be accepted with regret.

It was moved and carried that Mrs. Lillian Wilson be offered the Grade 2 position at Arrowwood.

It was moved and carried that school furniture as required be ordered from Western School Furniture Ltd., Edmonton.

Committee members checked the substitute teacher list for the month of June and confirmed the list of salary deductions as noted.

Committee members discussed the request which had been made from persons interested in the forming of a band for the county. This request had asked the support of the school committee for a band which would provide instruction for school students throughout the county, and after considering this matter, it was felt that the county should take no action for the present.

**MUNICIPAL COMMITTEE MEETING**  
The regular July meeting of the Municipal Committee of the County of Vulcan No. 2 was held on Wednesday, July 17. Committee Chairman Ivan Haga presided and Committee Members M. Willard, F. E. Hubka, A. W. Ulrich and D. McQueen were present. Also present at the meeting were Chester Rea, shop foreman, M. Dersch, construction foreman, J. O'Reilly, maintenance foreman and D. D. McQueen, secretary-treasurer.

A letter from Clarence Roth, District Agriculturist, was read. The letter advised the committee that a public meeting was being held in the Community Hall, Champion, on Monday, July 22, for the purpose of discussing the matter of a drainage district to drain lands west of Champion. The letter invited the officials of the county to be present.

A request for a culvert at the entrance on the south side of Section 28-16-25-4 was noted; instructions given to Mr. Dersch to see that the culvert was installed.

A request from Barry C. Middleton to cut down the road adjacent to his home on the north side of the N.W. 20-16-24-4, was read. This matter was taken under advisement.

It was moved and carried that the county supply a culvert to B. D. Bolduc on the N.E. 34-15-19-4.

**COUNTY COUNCIL MEETING**  
The regular July meeting of the Council of the County of Vulcan No. 2 was held on Friday, July 19. Reeve Jack Deitz presided, and Councillors F. E. Hubka, A. M. Ulrich, Ivan Haga, R. S. Irwin, A. McAllister, M. Willard, J. M. McKay, Frank Thurber and Donald McQueen were present. Also present at the meeting was D. D. McQueen, secretary-treasurer.

The financial statement for the month of June was read. The secretary-treasurer went over the figures with the councillors, and noted that the bank loans had been paid off and advised the council that tax collections were beginning to come in and it was anticipated that collections would be good this year again. It was moved and carried that the financial statement be adopted.

A letter from Angelo J. Murphy in respect to an application for approval to a Town and Rural Planning application to subdivide a small portion of the S.E. 35-18-25-4 was read. The application requested approval of subdividing five acres owing to the fact that the S.E. quarter had been sold and the buildings were divided between

## Second Session Swim Instruction Now Completed

A total of 90 swimmers enrolled and took part in the second set of swimming lessons between July 15 and 27. Of the 90, 68 swimmers were eligible and were tested on Friday and Saturday by Dave Mitchell and Dale Phillips (Red Cross) and Doug Crape and Henry Lewicki (Royal Life Saving Society) of Lethbridge. Sixty-five per cent of the candidates were successful in their efforts towards promotion.

**Beginners** — Laurie Cummins, Robin Cummins, Cheryl Roebuck, John Collier, Richard Jordan, Gordon Hagg, Charles Burken, Patrick Wisener, Linda Lou Pitcher.

**Juniors** — Keith Comstock, Joan White, Anna Lee Middleton, Richard Middleton, Jean Findlay, Ted Findlay, Gail Hagg, Kerry Cummins, Barry Jones, Terry Farrell, Brent White, Bruce Comstock, Danny McCullough.

**Intermediates** — Frank Cummins, Michael Holm, Marie Caldwell, Christine McLennan, Laurie McLennan, Bruce Stoddard, Pat Wylie, Marlene Lucas, Leslie Munro.

**Senior** — Rose Ann Findlay.

**Bronze Medallion** — Ina Haverly, Fay Findlay, Lynda Dann, Paul Voisey, Allan Hubbard, Tom Collier.

**Congratulations Swimmers!**  
Don't forget — if you are 10 years of age or over you are eligible for pre-bronze life-saving instruction or an artificial respiration award. Register at the pool.

A new group of swimmers signed in on July 29 — 96 of them — all noisy! Several car pools are bringing swimmers in from Mossleigh during this session.

The S.E. and the N.E. quarter. It was moved and carried that the application be approved.

A letter from the secretary-treasurer of the Municipal District of Rockyview in respect to a motion passed requesting the government to package grasshopper poison in one and two gallon cans as well as five gallon cans, was read. Councillors considered this matter and were in agreement with the request. A motion was passed to ask the government to consider this request.

A letter from the Fish & Game Department in respect to the stocking of fish in the Commodore Allen Dam was read for the information of the councillors.

The council discussed the matter of the steel teacheages which are being built in Vulcan at the present time, and considered the location for the third building which is to be moved to Vulcan. The original decision was to use this building at the repair shop location for a warehouse for the Service Board or other municipal activities, but after considering the matter further, it was finally decided that the building could be used to better advantage for a teacheage and an additional teacheage was needed. It was moved and carried to obtain a suitable site for the steel building and have it fixed up in the same manner as the other teacheages.

It was moved and carried that

the municipal committee zone and name and number the main roads in the county. This motion came as a result of discussion held after Mr. Haga, chairman of the municipal committee, reported on the activities of the public works for the past month. Councillors were requested to consider a by-law to authorize the erection of stop and yield traffic signs. There was no action taken on such a by-law at the present time.

Council gave instructions to request the District Highways Board to declare two miles of road connecting District Highways 232C and 232V, West of sections 3 and 10-16-19-4, a District Highway.

LOMOND COMMUNITY CENTRE

Size 113 x 308 Ft.

## Official Opening Lomond Community Centre Aug. 9

After many years of construction, the community of Lomond takes pride in announcing the official opening of its new Community Centre on Friday, Aug. 9.

Late in the fall of 1955 a contract was let to Wilson Arch Buildings Ltd. of Brooks for the construction of an arch rib structure, size 113 ft x 308 ft. When the building was completed in the spring of 1956 it was leased to the Alberta Wheat Pool for grain storage and for a period of five years about 185,000 bushels of wheat was stored in the big building.

The grain was removed in the spring of 1961 and a plan was then drawn up by the building committee of the Lomond Lions Club for the completion of the project. During the past two years the interior of the building has been finished and the Centre now consists of a skating arena, two sheets of artificial curling ice, a dining room, dance hall and fully-equipped, modern kitchen.

Only a minor indebtedness now remains, the entire cost of the big project having been met by revenue from grain storage, support from the Winter Works Program and donations from the Lomond Lions Club, the Ladies' and Men's Curling Clubs, the Ladies' Community Club, the Ladies' Goodwill Service Club, the Ladies' Birthday Club, the Lomond Pioneer Club and the Lomond Nursing Association.

The opening on Aug. 9, will start at 4:00 p.m., when a carnival and a dunking tank will be the attractions, with a big barbecue supper at 5:30 p.m. Guest speakers at the opening ceremonies will include Raymond Speaker of Enchant, M.L.A.; Deane Gundock, Lethbridge MP; and Jack Thompson, Lions International Counselor.

In the evening there will be bingo and a big dance.

The committee in charge of planning the official opening is very pleased with the support given by residents of the Armada, Lomond and Travers districts.

## Foothills Trips Are Popular This Summer

During the past several weeks many local families and groups have dodged weather disturbances to take in the beauties of the western foothills and mountains.

There's lots of camping and picnicking up the Highwood and along other popular valleys of the foothills and fair catches of fish are being reported in smaller streams just now. Savannah and Livingstone creeks are yielding trout but so far the Highwood is considered quite high for good fishing although it is now clearing.

Bridges along tributaries of the Highwood were washed out in the recent flash flood. This was also the case on Willow Creek, west of Nanton. Mrs. Stan Hoare of the Drift Willow Ranch, four miles west of Pulteney, said there was an incredible flow of water down the Willow for 12 hours over Saturday night and Sunday of July 1st weekend. Cattle were marooned on high points with the big loss being to the calf crop of some ranchers.

Cliff McAskie and his son Allan were more than somewhat surprised last weekend while driving along the Coleman-Kananaskis road, to sight a wolverine. It was apparently about to cross the road as they approached but disappeared in the trees when the two fishermen drove into view.

This is one species of mountain wild life with which co-existence around a camp is out of the question.

## Ivers-Hermann Rites Solemnized

Bouquets of red roses and yellow mums decorated the home of Mr. and Mrs. Everett Hermann Saturday, July 6, when the Rev. Ronald Pelham of Vulcan officiated at the candle light service at 7 p.m. when Susan Gail Hermann, daughter of Mr. and Mrs. Everett Hermann, became the bride of John Allan Ivers, son of Mr. and Mrs. Lewis Ivers.

Given in marriage by her father, the bride chose a white brocade sheath with mauve overskirt. Her short mantilla veil was held by a tiara of seed pearls. The bridal bouquet was of white carnations.

Attending the bride was her sister, Mrs. Ellen Watt, wearing a sky blue sheath with yellow accessories. Lorne Healy, brother-in-law of the groom, was best man.

The bride's mother was attired in a yellow cotton sheath and the groom's mother, a blue and white figured terylene. Both wore white accessories and white carnation corsages.

A buffet lunch was served on the patio. The toast to the bride was proposed by the minister. A beautiful three-tiered cake centered the table.

For going away, the bride changed to a brown linen shift embroidered with white at the neckline. Her corsage was of yellow roses.

Mr. and Mrs. John Ivers will make their home on the Ivers farm following a honeymoon at Waterton Lakes and Kallispell, Mont.

## Sunday Storm Looked Bad

All the indications of a damaging hail storm were present Sunday afternoon when heavy clouds built up in the west accompanied by a sharp drop in temperature.

Hailstones did fall for two or three minutes in most parts of the district but there have been few reports of noticeable crop damage except in the Travers district.

Light showers of rain hit most parts of the country but the storm passed quickly to the east.

One more good rain within the next week or ten days would benefit most crops.

## Water Safety Demonstrations At Lake McGregor

(By Milo Correspondent)

A water safety demonstration was held at Lake McGregor on Saturday afternoon. These demonstrations are sponsored by the Red Cross Water Safety Service and the Alberta Safety Council with the hope that they will be able to pass on some information which will help to decrease the number of drownings in the province.

In 1961, 54 people drowned in Alberta and 38 drowned in 1962. Seldom does a weekend go by when we don't read about one or more drownings and with the ever-increasing number of people visiting lakes the possibility of drowning also is increasing. The Canadian Red Cross and the Alberta Safety Council have dedicated themselves to reducing the number of these accidents. They are attempting to do this in two ways:

First, teaching as many people as possible to swim, since the chance of a swimmer drowning is only half of that of a non-swimmer.

Second, educating the public in water safety both regards to precautions which should be taken and to simple methods of rescue of themselves and others.

The first portion of this demonstration was swimming progressions used in Red Cross lessons. Those present were able to see what level a swimmer must achieve to obtain each award, and an idea how well their child swims, if he holds one of the awards.

The demonstration also showed water safety skills, which may help to save your life or to save someone else's life. It covered life saving techniques from the very simple to the complex, the latest methods of artificial respiration and boating safety.

The following is a list of those taking part in the water safety demonstration:

First was a demonstration of strokes: Side stroke, Donna Hellevang; breast stroke, Linda Page; elementary back stroke, Judy Willard; back crawl, Edna Sigsworth; crawl, Joy Black; trudgeon, Keith Goldthorpe.

Supplementary Skills — Arms only, skulling or finning, Linda Page; legs only, Judy Willard; treading water, Joy Black; front dive, Linda Page; shallow dive, Edna Sigsworth; running dive, Donna Hellevang; stride jump, Joy Black; surface dive, Edna Sigsworth.

Four swimmers namely Arthur DeWitt, Edna Sigsworth, Linda Page and Terry Heather swam across the lake with every safety precaution taken. Distance across the lake is approximately 8-10' of a mile.

An angler was describing his toughest catch. "After three hours I landed this terrific monster," he said.

"I saw the pictures and he was only 12 inches long," a friend protested.

"Sure," admitted the angler, "But in three hours of fighting, a fish loses a lot of weight."

## No Glauber's Salts

## Analysis Shows New Town Water Excellent Quality

Analysis of Vulcan's new water supply from the Little Bow River shows that the town is now enjoying water of excellent quality, comparable to the water at High River and Calgary.

Biggest difference between the old and new water supplies is, of course, the absence of Glauber's salts in the new water. The previous supply, which came from wells, showed an average content of 165.9 grains of Glauber's salts per gallon. Total solids in the old water supply amounted to 2,638 parts per million, while in the new water supply this is down to 274 parts per million. Sulphates also show a considerable (and healthy) drop: from 1,339 parts per million in the well water to 68 parts per million in the new supply from the river.

On the debit side is the absence of fluorine in the new river water. Well water in the town has a fluorine content varying from 1.1 to 1.9 parts per million, just about the ideal proportion for prevention of dental cavities and mainly responsible, according to expert opinion, for the better-than-average teeth found in persons born and brought up in this district. But fluorine can be added to a water supply at very low cost and this action can be taken some time in the future if it is desired by the town residents.

The heavy salts content of the former water supply made the water "soft," the new water is comparatively "hard" and requires more soap to do the same washing job.

Alkalinity of the old water was 200 parts per million, composed of bicarbonate of soda, lime and magnesium. In the new water, the alkalinity is down to 120 parts per million (bicarbonate of lime and magnesium).

Provincial laboratory analyses of both the old and new water supplies are given below for comparison and as a matter of interest.

**Shower Honoring Mrs. Susan Ivers**

The basement of the Milo United Church was beautifully decorated with a profusion of various summer flowers, blue and white streamers and white wedding bells on July 20, in honor of Mrs. John Ivers (nee Susan Hermann) whose marriage took place recently.

Miss Sylvia Will was in charge of the guest book in which some 70 guests signed their names. Seated at the bride's table were the bride, her mother, Mrs. E. Hermann, her maternal grandmother, Mrs. A. Staley, her sister, Mrs. W. Watt, the groom's mother, Mrs. L. Ivers and sister of the groom, Mrs. L. Healy Jr. The table was covered with a delicate lace cloth centered with a bowl of dark red roses and vases of pink hollyhocks and ferns.

The evening's entertainment started with a variety of songs by the guests, led by Mrs. Wray McCullum and Judy Willard. Mrs. Norman Vannatta presided at the piano. The feature item of the program was a mock wedding with Juanita Crabb, very stylish in a dress of some years ago, as the eager bride, Doris Orchard, in baggy patched trousers being led on a leash, as the unwilling groom and Rita Thomas, as the impressive and eloquent preacher.
